

DYNAMIC DUEL WHOLE HOUSE CARBON FILTRATION SOFTENER SYSTEM

SHOOTING DOWN THE LIMITATIONS OF THE TRADITIONAL WATER SOFTENER!

INTRODUCING THE DYNAMIC DUEL WHOLE HOUSE CARBON FILTRATION SOFTENER SYSTEM.

Carbon filtration is the oldest and most reliable water filtration method. The use of carbon for water filtration dates back to ancient Egypt.

Chemicals and waterborne contaminants bond to the carbon at a molecular level, simply by passing over the carbon. This eliminates chlorine, all VOCs (volatile organic compounds) and odors. Traditional water softeners only remove a portion of chlorine.

CHLORINE IS HARMFUL IN MANY WAYS

Tap water is chlorinated. When chlorinated water is heated, such as for a bath or shower, chlorine gas is released into the air. Every time you take a hot bath or shower without a carbon filter, you breathe in some amount of chlorine gas.

NO COSTLY UP FRONT INVESTMENTS

We replace the carbon filter and water softener every 5 years with our rental program. All service required, other than regular salt addition, is included in the rental fee.

**JUST \$50 PER MONTH PLUS A
ONE TIME \$225 INSTALL ON A SOFT WATER LOOP**
